FABRIC SHADE STRUCTURES

BUILT TO LAST.

FAMILY-OWNED SINCE 1997

Rooted in Family. Raised in Steel.

Founded in 1997, Custom Canopies is a family-owned manufacturer of commercial shade and shelter systems serving dealers, architects, municipalities, and school districts nationwide.

Specializing in HDPE shade, waterproof PVC tensile structures, and steel shelters, we deliver engineered, site-specific solutions built around the project and its regional requirements, backed by extensive DSA experience.

From our Arizona manufacturing facility, we bring steel fabrication, powder coating, and fabric production together in-house. That coordination supports quality control, production efficiency, and a clear path from concept through manufacturing and delivery.

Our approach combines responsive, hands-on leadership with precision and craftsmanship, building long-term partnerships rooted in trust.

BUILT TO LAST.

Family-Owned Since 1997.

WHERE ARCHITECTURE MEETS ATMOSPHERE

Shade is not simply protection from the elements. It is spatial definition. It shapes movement, frames gathering areas, softens hardscapes, and transforms outdoor environments into intentional places.

At Custom Canopies, design begins with understanding how people will experience a space.
