THE COLLECTION

A place worth staying for.

Custom Canopies brings its family-owned approach to a new collection of luxury canvas accommodations. We work with hospitality owners, designers, and project teams to explore tent configurations and options for distinctive outdoor stays.

01

Glamping tents

Comfortable canvas spaces that connect guests with the outdoors.

02

Canvas lodge tents

Tented accommodations for lodge settings and destination hospitality.

03

Semi-permanent structures

Flexible canvas structures for a range of hospitality concepts.

FAMILY-OWNED SINCE 1997.

CUSTOM
CANOPIES

DESIGN POSSIBILITIES

Room for your own kind of escape.

CONCEPT RENDERING / ILLUSTRATIVE CONFIGURATION

Your setting. Your configuration.

From individual guest suites to connected lodge spaces, explore a layout that suits your destination. Work with CCI to define the tent configuration, exterior character, and optional finishes.

Furnishings, decking, and the pool shown are illustrative. Final inclusions are defined in the project scope.

MATERIALS & CONSTRUCTION

Considered from the canvas up.

550 gsm

Ripstop canvas

Primary canvas roof, available in a selected range of colors.

94%

Shade net

An outer shade-net layer that helps reduce solar heat and protect the primary canvas roof.

TWO-LAYER ROOF SYSTEM

2.4 m	**Wall height** A generous wall height creates an open interior.
Modular	**Replaceable panels** Panel construction supports customization and maintenance.
PTFE	**Sewing thread** Durable thread used for long-lasting canvas seams.

Specifications describe the supplied tent system. Final dimensions, material selections, and site suitability are confirmed for each configuration.

COMFORT OPTIONS

A comfortable place to unwind.

CONCEPT INTERIOR

OPTIONAL CLIMATE CONTROL

Insulation options

Explore insulation suited to the climate and intended operating season. Coordinate the enclosure and interior experience around the site.

Split air conditioning

Discuss split-system air conditioning as part of the comfort package, with power and installation requirements coordinated for the project.

Interior finishes and furnishings shown are illustrative.

OUTDOOR LIVING

Make room to linger.

Decking creates a natural connection between the tent and its surroundings. Plan dining, lounging, and circulation spaces around the way guests will use the property.

Discuss decking options, access, and the transition between indoor and outdoor spaces as part of your project brief.

DECKING. GATHERING. CONNECTION.

CUSTOM
CANOPIES

FROM FIRST IDEA TO ARRIVAL

Build the brief. Shape the experience.

01

Define the destination

Share the site, intended use, guest experience, and planned number of units.

02

Select the configuration

Explore tent layouts, materials, decking, and comfort options.

03

Coordinate the scope

Confirm dimensions, site criteria, utilities, and installation responsibilities.

04

Plan the delivery

Agree on schedule, freight, access, and site-readiness requirements.

Support beyond delivery.

Care

Replaceable panels help simplify upkeep. Follow the care guidance supplied with your tent.

Warranty

Canvas, structure, and workmanship coverage is defined in the applicable project documents.

Project review

Confirm warranty durations, exclusions, and maintenance requirements with CCI before ordering.
