ABOUT US

Rooted in Family.
Raised in Steel.

Founded in 1997, Custom Canopies Inc. is a family-owned manufacturer of commercial shade and shelter systems serving architects, municipalities, and school districts nationwide.

Specializing in HDPE shade, waterproof PVC tensile structures, and steel corrugated shelters, the company delivers engineered, site-specific solutions built to meet regional wind, seismic, and building code requirements — including extensive DSA experience.

Operating from its Arizona manufacturing facility, Custom Canopies integrates steel fabrication, powder coating, and fabric production in-house, ensuring quality control, production efficiency, and streamlined coordination from concept through installation.

Known for responsiveness and hands-on leadership, the company blends advanced engineering with family values — creating long-term partnerships rooted in trust, precision, and craftsmanship.

1.47 mm

Temperature Range
−30°C to +70°C

HOW TO MEASURE FOR WIND SCREEN

MATERIALS NEEDED

- Pad (preferably with a grid)
- Pencil/Pen
- 100' or 300' tape measure
- 25' tape measure (for height)

STEP 1

Draw layout of the site and include a landmark.

Example: NW corner or starting at build etc.

STEP 2

Measure height of fence and notate on layout. Check height in multiple locations and use lowest height measurement.

STEP 3

Measure each section of fence from outside tension bar to outside tension bar.

IMPORTANT: for sections under 20' deduct 2" from measurement; for sections over 20' deduct 3" and add this measurement. Each panel should not exceed 50'; round down to nearest half inch as needed.

STEP 4

Repeat same process for measuring gates. Check the height and measure outside tension bar to outside tension bar and deduct 2".

STEP 5

Assign each section a unique number on diagram; Your panels will be labeled with these numbers for easy identification.

(Optional but recommended)

BEFORE YOU ORDER

When placing order or getting a quote, discuss fence height and appropriate screen height with customer service. Notate any height changes.

FENCE SCREEN - FEATURES

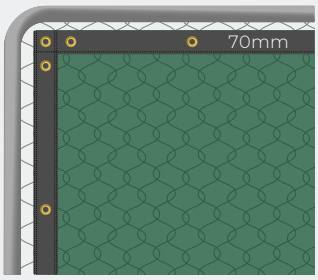

- Enhance privacy and security with our fabricated fence screens. Crafted from high-quality materials for durability and style.
